

Your First PCP Visit Is \$0 — Schedule Today!

Make the most of your Jefferson Health Plans benefits.

Dear Member or authorized representative for the Member:

Taking care of your health starts with a simple step: seeing your primary care provider (PCP).
And your first visit costs \$0.*

Why see a PCP? Your PCP helps you stay healthy, catches problems early, and can save you money by keeping you out of the ER. Whether you need a checkup, help managing a health condition, or just have questions — your PCP is your partner.

Here's how to get started:

Call your doctor's office to schedule an appointment. Need to find an in-network doctor?
