- Jefferson Health Plans EverWell members aged 21 and older do not have a shift care benefit.
- Application of Claim Payment Policy is determined by benefits and contracts. Benefits may vary based on product line, group, or contract. Payment may vary based on individual contract.

POLICY STATEMENT

The intent of the plan's policy is to communicate to professional providers the reporting requirements, reimbursement rules, and billing practices for pediatric shift care when multiple members in a household are receiving care.

When Home Health Aide (G0156) or Skilled Nursing Services (T1002/T1003) are provided to two or more members in the same household, reimbursement shall be issued at 75% of the contracted rate for each individual. Providers are required to bill these services using the TT modifier, regardless of the Payor.

Prior authorization is required for all applicable services. Providers must submit claims using the correct modifier as indicated in the approved authorization. Providers will be required to submit the modifier U7 for code G0156 when the

request is for a member under age 21. The TT modifier needs to be used when a caregiver is caring for more than 1 beneficiary simultaneously. The SC modifier needs to be requested when the care is being delivered by a legally responsible relative.

POLICY GUIDELINES

Claims needs to include modifier U7 for code G0156 and this modifier must be listed first. Modifiers should be listed as shown in the following order if applicable: 1st U7, 2nd TT, 3rd SC.

When reporting services, providers/facilities should code to the highest level of specificity using the code that was in effect on the date the service was rendered. This list may not be all inclusive. (CPT® is a registered trademark of the American Medical Association.)
